

Plastic Free Campus – 19th August 2014

The management, staff and students of Srinivasa Institute of Engineering and Technology launched the campaign “Green, Clean and Plastic Free Campus’ on 19 August 2014 in the College premises. It was inaugurated by our Principal **Dr. T.Ravi**. This campaign is organised to bring awareness among the students about the importance of cleanliness. NSS Volunteers(30 volunteers) assembled in front of the college portico with placards which gave a message to the students about the importance of plastic free campus.

Later the students went in a procession inside the college campus with the placards to show the importance of this campaign and create a sense of responsibility in every student of this college. The motive of this campaign is to avoid the use of plastic completely inside the campus. Students were asked to keep their classes clean and also to maintain it every day.
